

How to draw:

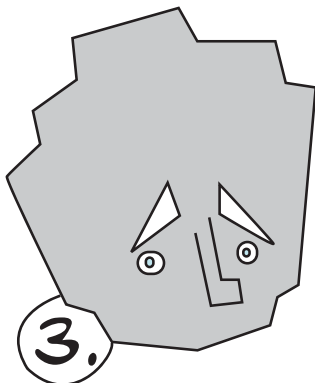

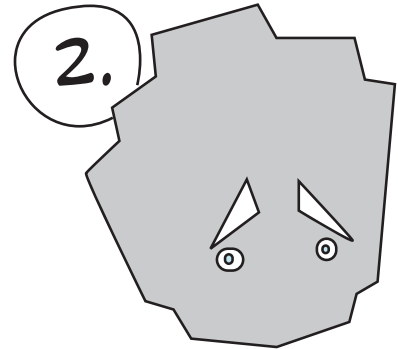

THE INCREDIBLE ROCKHEAD

What you'll need:
a pencil
a piece of paper
an eraser (or two!)

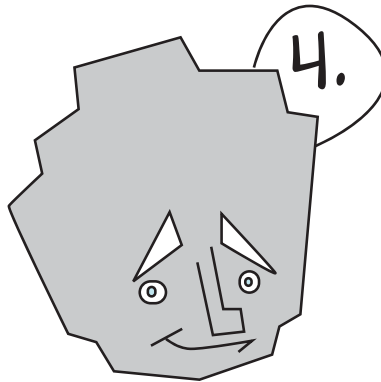

1. Draw an oval to make the shape of the head. Then, add some jagged edges around the oval and erase the oval. (This will be the hardest part, so use your eraser if you need to!)

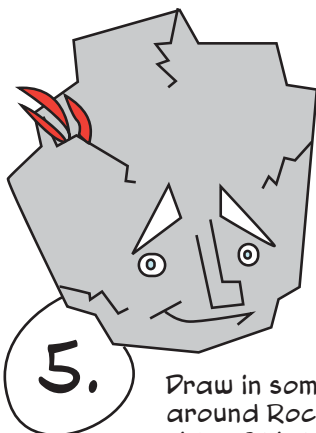

Draw two triangles for Rockhead's eyebrows and two circles underneath the triangles for the eyes. Draw another circle within each of the eyes for the pupils.

3. Inbetween the eyes, draw two "L"s on top of each other. Then connect the bottom of the "L"s together to make the nose.

4. Next, for Rockhead's best feature, his smile. Draw a half smile with a line for his cheek and another line for his chin.

5. Draw in some jagged lines (cracks) around Rockhead's face. On the left side of his head, add three little leaves poking out of one of Rockhead's cracks. Now your own Rockhead is complete!

If you don't want to stop now, you can color in Rockhead, or even better, draw the rest of Rockhead's body.
