

ACES ON TOP

Magicians are known for making things disappear. But sometimes the trick is making things appear. Watch as the aces suddenly show up on top.

Getting Ready:

Secretly put the four aces face down on top of the deck.

The Trick:

1

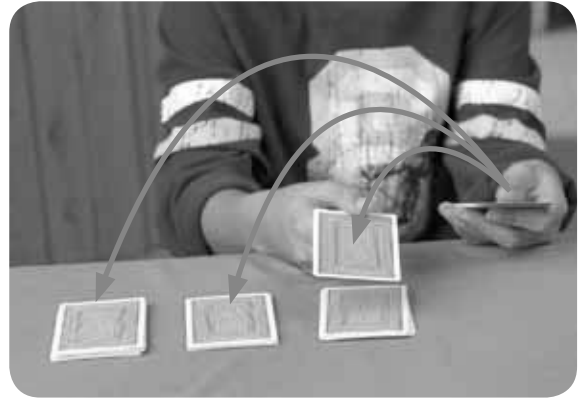

Separate the deck into four equal piles. The four aces will be on top of the first pile.

2

Pick up the last pile.
Move the top three
cards to the bottom.

Then put one card from the
top onto each of the other
three piles.

3

Repeat step 2
with the other
three piles.

4

Turn over the top
card of each pile.
The four aces are
magically on top.
